

ANIVESH GUPTA

B.Tech CSE @ VIT Vellore (2023–2027) | Software Developer | Full-Stack & AI/ML

aniveshgupta13579@gmail.com · +91 6289028044 · Vellore, India · linkedin.com/in/aniveshgupta · github.com/AniveshGuptaOfficial · aniveshguptaofficial.github.io/PORTFOLIO

PROFESSIONAL SUMMARY

Computer Science undergraduate at VIT Vellore with hands-on experience in full-stack web development, machine learning, NLP, and embedded systems. Skilled in React.js, Node.js, Python, Java, and REST API development with 100+ competitive programming problems solved. Experienced in building end-to-end software projects, mobile app development with Flutter, and AI/ML model training and deployment. Seeking a Software Developer or Full-Stack Developer role to build impactful, real-world products.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, HTML5, CSS3, Dart
Frameworks & Libraries: React.js, Tailwind CSS, Node.js, Express.js, Spring Boot, FastAPI, Flask, Flutter, PyTorch, scikit-learn, pandas, MediaPipe, OpenCV, Hugging Face Transformers, Google Gemini API
Databases & Tools: Oracle SQL, Firebase, Git, VS Code, Figma, Vercel, WebSockets, MATLAB, Gradle
Concepts: Data Structures & Algorithms, OOP, REST APIs, Machine Learning, NLP, Prompt Engineering, System Design, Mobile App Development, Embedded C, Microservices, Agile, Model Evaluation, Data Preprocessing, Version Control

PROJECTS

- Vaidyum — Intent-Routed AI Assistant for Emergency Triage in Rural Healthcare**in Progress
 - Built an NLP pipeline that classifies health helpline messages into Emergency, Medicine Query, or Appointment; routes each to a Gemini-powered assistant with context-specific prompts for triage, medicine info, and scheduling.
 - Developed Flutter Android app with voice input, spoken replies, and conversation history backed by a FastAPI intent-routing service.
- Adaptive Temporal Expert Routing Network with Dynamic Quantile Decoding (ATERN-DQD) — Solar Power Forecasting**in Progress
 - Research project developing a probabilistic solar power forecasting system using a Mixture-of-Experts temporal backbone with dynamic quantile decoding — targeting IEEE Transactions on Power Systems publication.
- Real-Time Sign Language Recognition System**2026
 - Trained SVM classifier on a custom 36-class ASL dataset (~7,200 samples) using 42-dim MediaPipe hand landmark features; achieved 92–96% validation accuracy.
 - Deployed as a FastAPI web app with browser webcam streaming and TTS output, and a standalone desktop app using OpenCV.
- Ultrasonic Distance-Based Automatic Fan Control**2026
 - Designed an embedded system on AT89S52 (8051) using HC-SR04 ultrasonic sensor and L298N H-bridge to control a DC fan with hysteresis logic; implemented software I2C for 16x2 LCD display.
- VTrade — University E-Commerce & Delivery Platform**2025–Present
 - Full-stack campus marketplace for VIT students with OTP auth, cart, escrow payments, geofence delivery, and real-time order assignment using Node.js/Express backend.
- Multiplayer Chess Game**2025
 - Browser-based chess game with full rule enforcement, minimax AI opponent, and real-time multiplayer via WebSockets.
- Books4MU — University Book Store**2025
 - Responsive e-commerce platform for university students with semester-wise categories, cart functionality, and 75% discount system.
- Portfolio Website**2024
 - Responsive React.js single-page application deployed on Vercel; showcases projects, skills, and certifications with 56+ commits.

EDUCATION

- B.Tech in Computer Science and Engineering** — VIT University, Vellore2023 – 2027
 - Relevant Coursework: Data Structures & Algorithms, Design & Analysis of Algorithms, Operating Systems, Computer Networks, Database Systems, Artificial Intelligence, Software Engineering, Web Programming, Probability & Statistics, Natural Language Processing

CERTIFICATIONS

- Advanced Generative AI** — IBM Career Education Program (Jul 2026)
IBM Java Developer Professional Certificate — IBM & Coursera (Jun 2026)
AI Foundations Associate — Oracle (Sep 2025)
Cybersecurity Job Simulation — Deloitte & Forage (Jun 2025)
Data Science Bootcamp — GeeksforGeeks (Jul 2025)
DSA — Infosys Springboard (May 2025)
Human Computer Interaction — NPTEL (Apr 2026)
Yantra Central Hackathon — VIT (Feb 2025)

COMPETITIVE PROGRAMMING

Actively solving Data Structures & Algorithms problems on LeetCode & Codeforces2025–Present

LANGUAGES, SOFT SKILLS & INTERESTS

Languages: Hindi (Native) · English (Professional) · Bengali (Conversational) · Spanish (Basic)
Soft Skills: Leadership · Teamwork · Problem-Solving · Quick Ideation · Quick Learner · Reliability · Creativity
Interests: Traveling · Photography · Exploring Cuisines · Watching Movies · Music
